STEP 1
Create a Strategy
Workspace

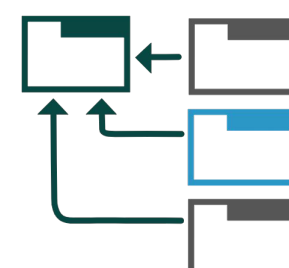

STEP 2
Cascade Strategy into
Scorecards

STEP 3
Create Functional
Scorecards

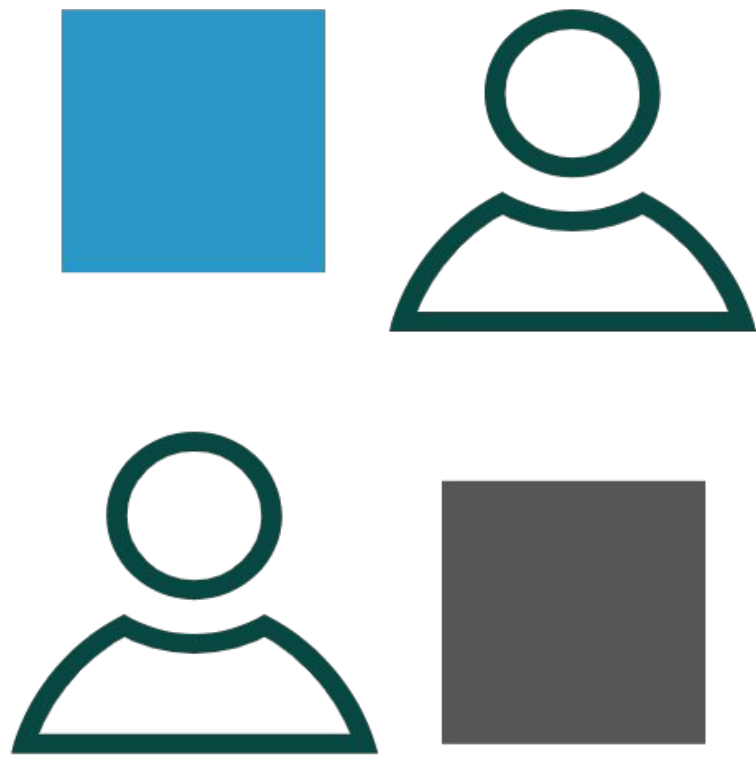

STEP 4
Decompose High-Level
Objectives

STEP 5
Align Scorecards

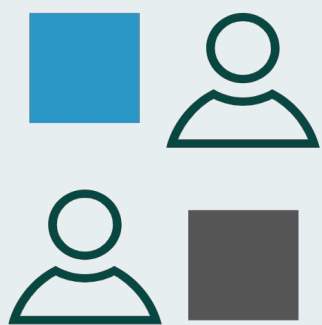

The Deployment of Complex Strategies

* Source: 5 Step Strategy Deployment System. <https://bscdesigner.com/strategy-deployment.htm>

Create a **Strategy Workspace**

Document the **vision**, **mission**, and **values** of the organization.

Articulate the **stakeholders** and their needs.

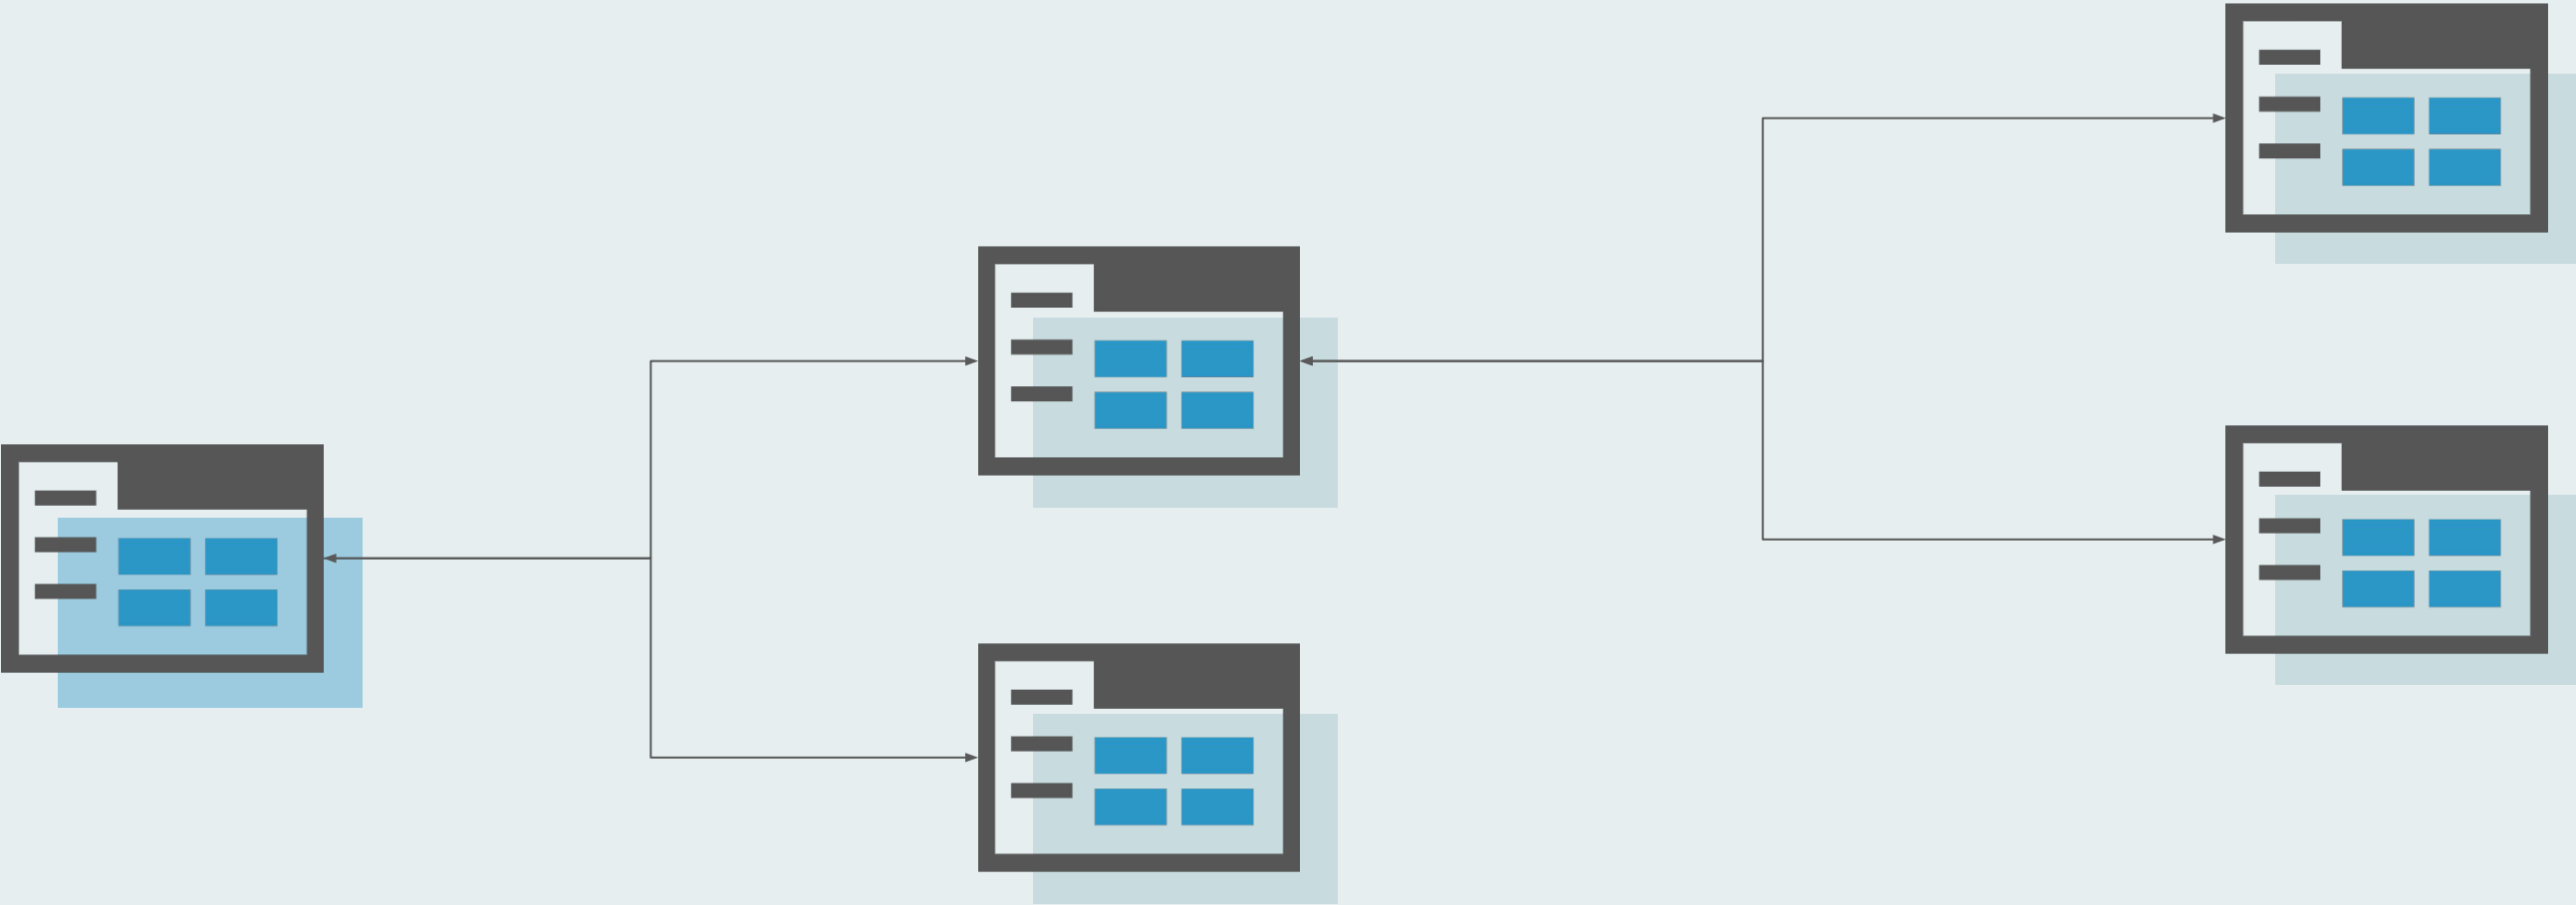

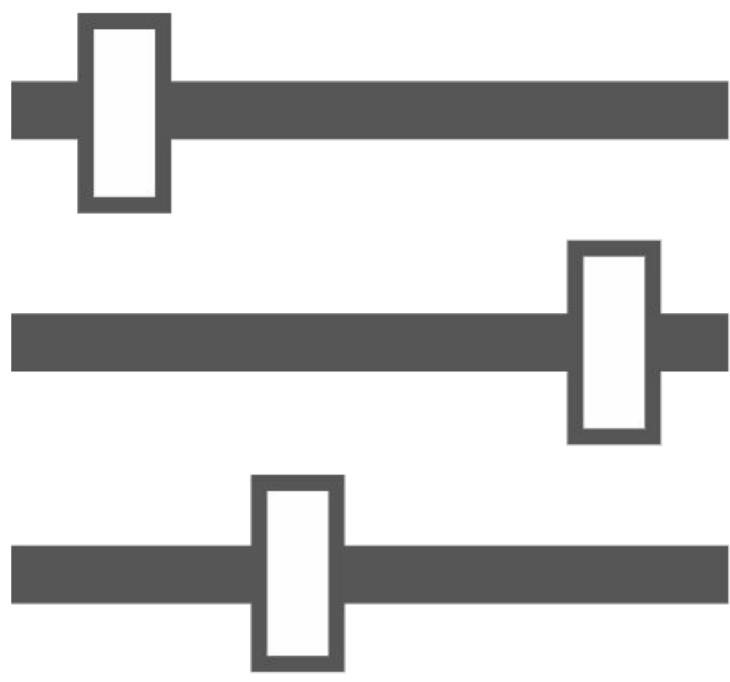

Involve the **team** in strategy design and execution.

Cascade Strategy into Scorecards

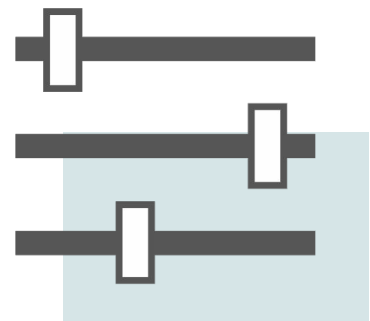

Cascade the high-level strategy into **strategy scorecards**.

Create **Functional Scorecards**

Create scorecards for supporting functions like **governance**, **compliance**, **HR**, and **cybersecurity**.

Governance

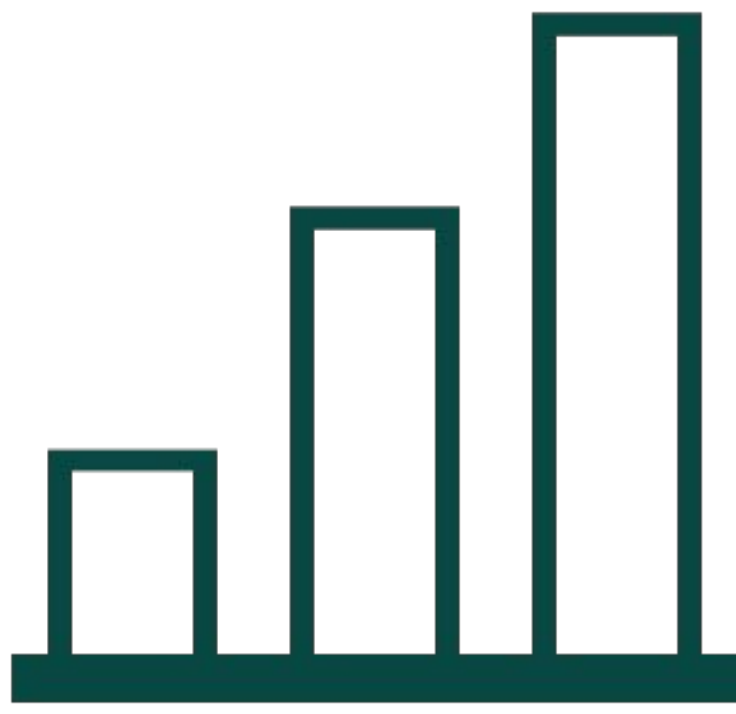

Risks

Compliance

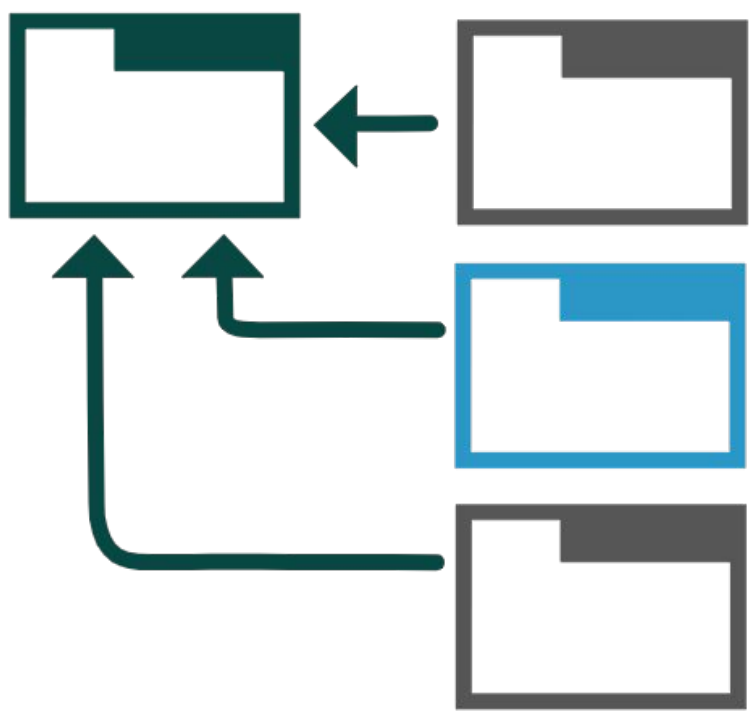

...

Decompose High-Level Objectives

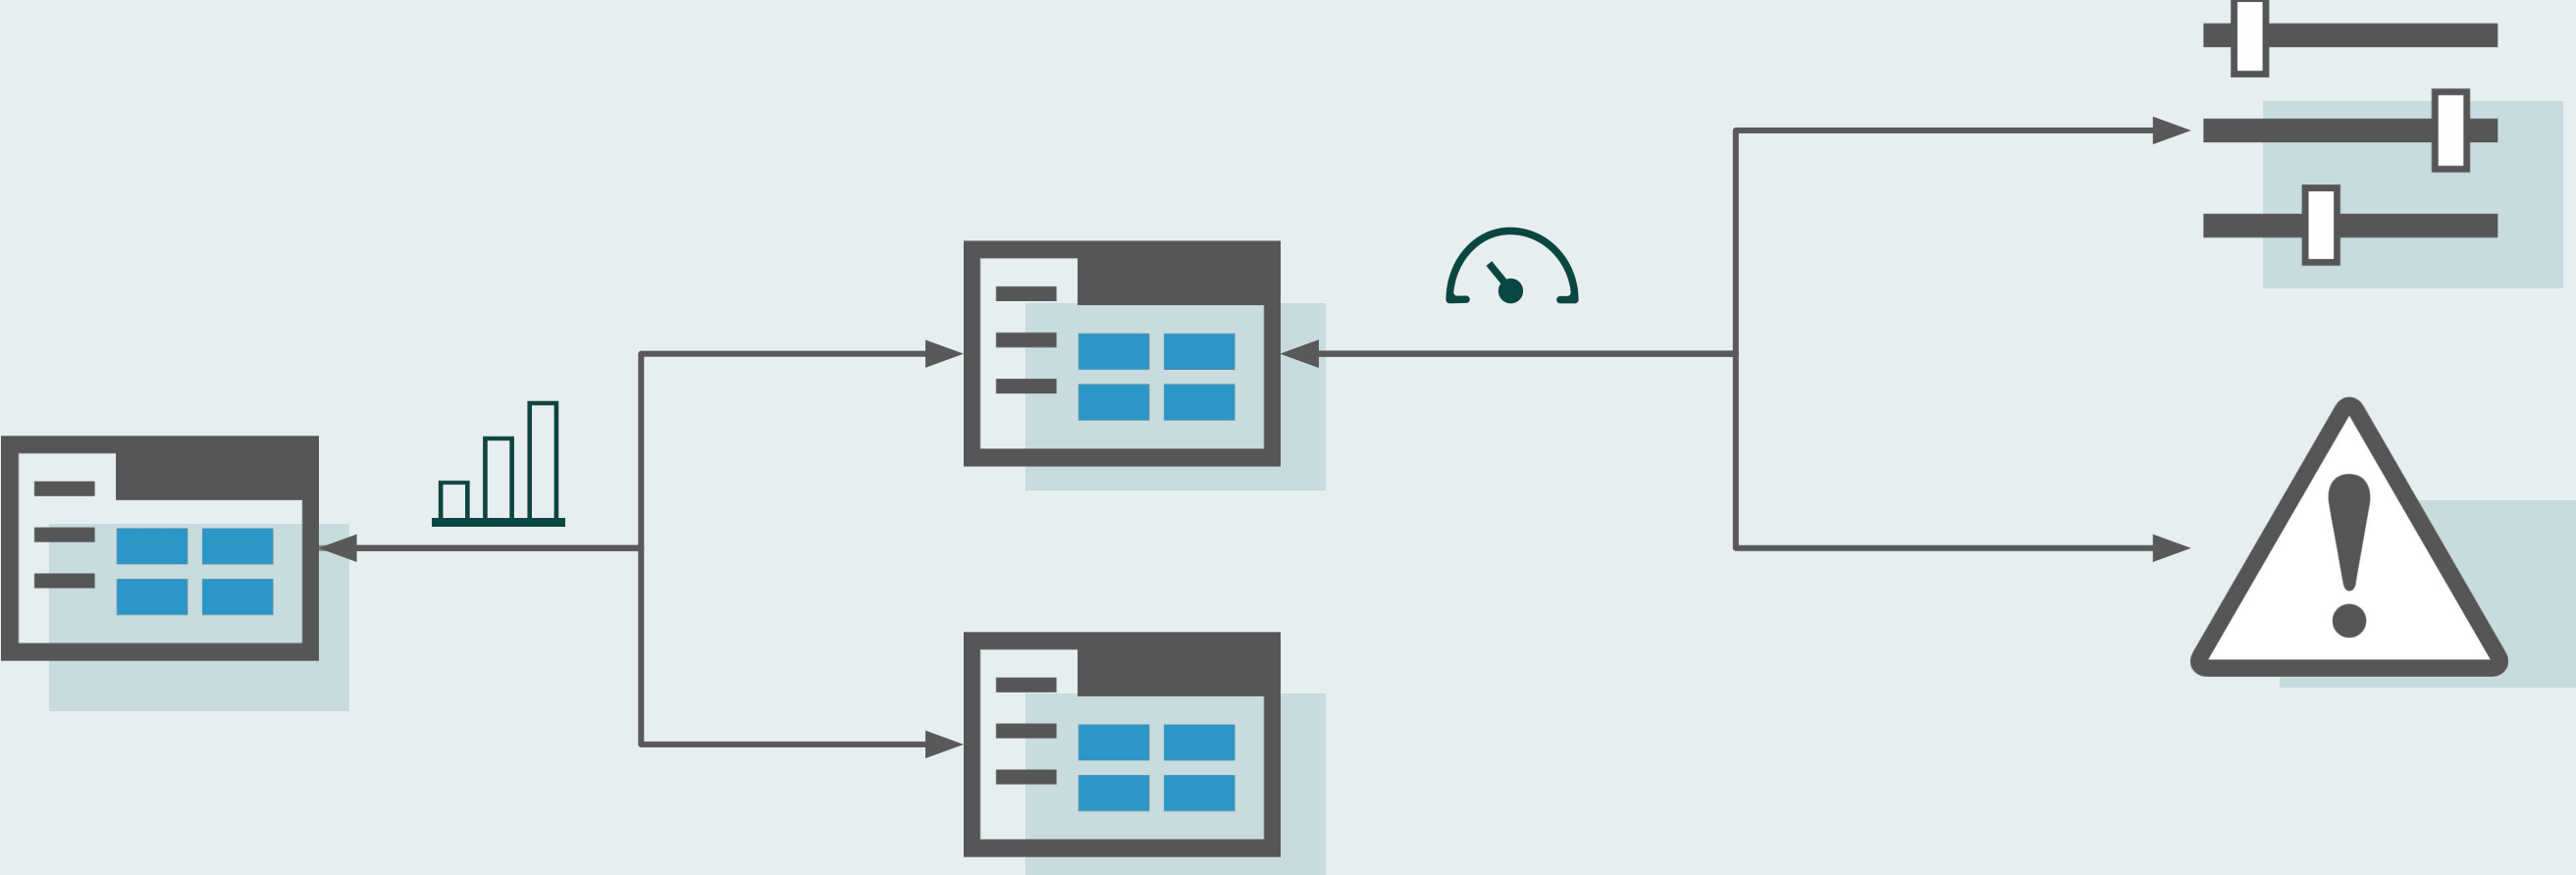

Use business frameworks to break down high-level objectives into **goals**, **metrics**, **risks**, and **initiatives**.

Align Scorecards

Align scorecards by **data** or **context** to form a comprehensive strategy.

Automate

Use the **BSC Designer** platform to design and deploy strategy of your organization.
