Strategy Attributes

- **Mission**
 Making strategies easier to execute by providing agile Balanced Scorecard software, high-valued content, and excellent customer experience.
- **Vision**
 Provide organizations worldwide with an effective tool to explain their strategy to the employees and track execution.
- **Values**
 - Wow customers
 - Be proactive
 - Adaptability
 - Expertise

Strategy Workspace

General

Automation for all steps of the strategy implementation system

Document storage

Access to Premium Templates (quickly define a strategy for additional focus areas such as cybersecurity, procurement, or corporate governance)

Customization (logo, profiles for dashboards, performance formulas, reports)

Roles according to the strategic planning process (view-only users, data input users, power users, administrators)

Calculation of the scorecards

Cascading/alignment

Make Your Goals Tangible by Defining KPIs

The software does all calculations, including normalization, weights, indexes, calculation of progress.

Name	Value	Dynamic	Progress	Target
- An Example of the Balanced Scorecard for HR	54.41	↓ -4%	● 58.13%	100
+ Finance	56.94	→ 0%	● 56.94%	100
- Customer	43.35	↓ -15%	● 44.81%	100
- Improve talent attraction strategy	22.95	↓ -25%	● 22.95%	100
Yield ratio	20	↓ -13%	● 25%	35
Time to hire	80	↑ -6%	● 18.18%	35
Recruitment programs improvement	59.67	→ 0%	● 86.53%	100
+ Widening the potential talent pool	63.75	↓ -11%	● 66.67%	100
+ Internal Business Processes	59.83	→ 0%	● 73.26%	100
+ Learning and Growth	57.5	→ 0%	● 57.5%	100

General | **Data** | Performance | View | Context

Value: 

Baseline:

Target: -56.25% 

Total Target (YTD) : 35

Make Your Goals Tangible by Defining KPIs

KPIs: Setup

Multilevel KPIs. Aligning KPIs with goals.

Measurement units (quantitative, qualitative, natural-choice, binary)

Update intervals (daily, weekly, monthly, quarterly, annually, etc.)

Aggregation types (sum, average, accumulated, etc.)

Different views for the KPIs table (performance, budgets, updates, initiatives, custom views)

KPIs: Calculation

Relevant/absolute weights

Dynamic calculation

Performance formulas (minimization, maximization, binary, etc.)

Aggregation by periods (months, quarters, years, etc.)

Inherited data for periods without specifically entered data

KPIs: Calculation

Leading/lagging indicators

Calculations for containers/groups of KPIs (average, sum, etc.)

KPIs: Data sources

Formulas with values/performance of other KPIs

External database (MySQL, PostgreSQL, MS SQL Server, SAP Hana)

Import from spreadsheets

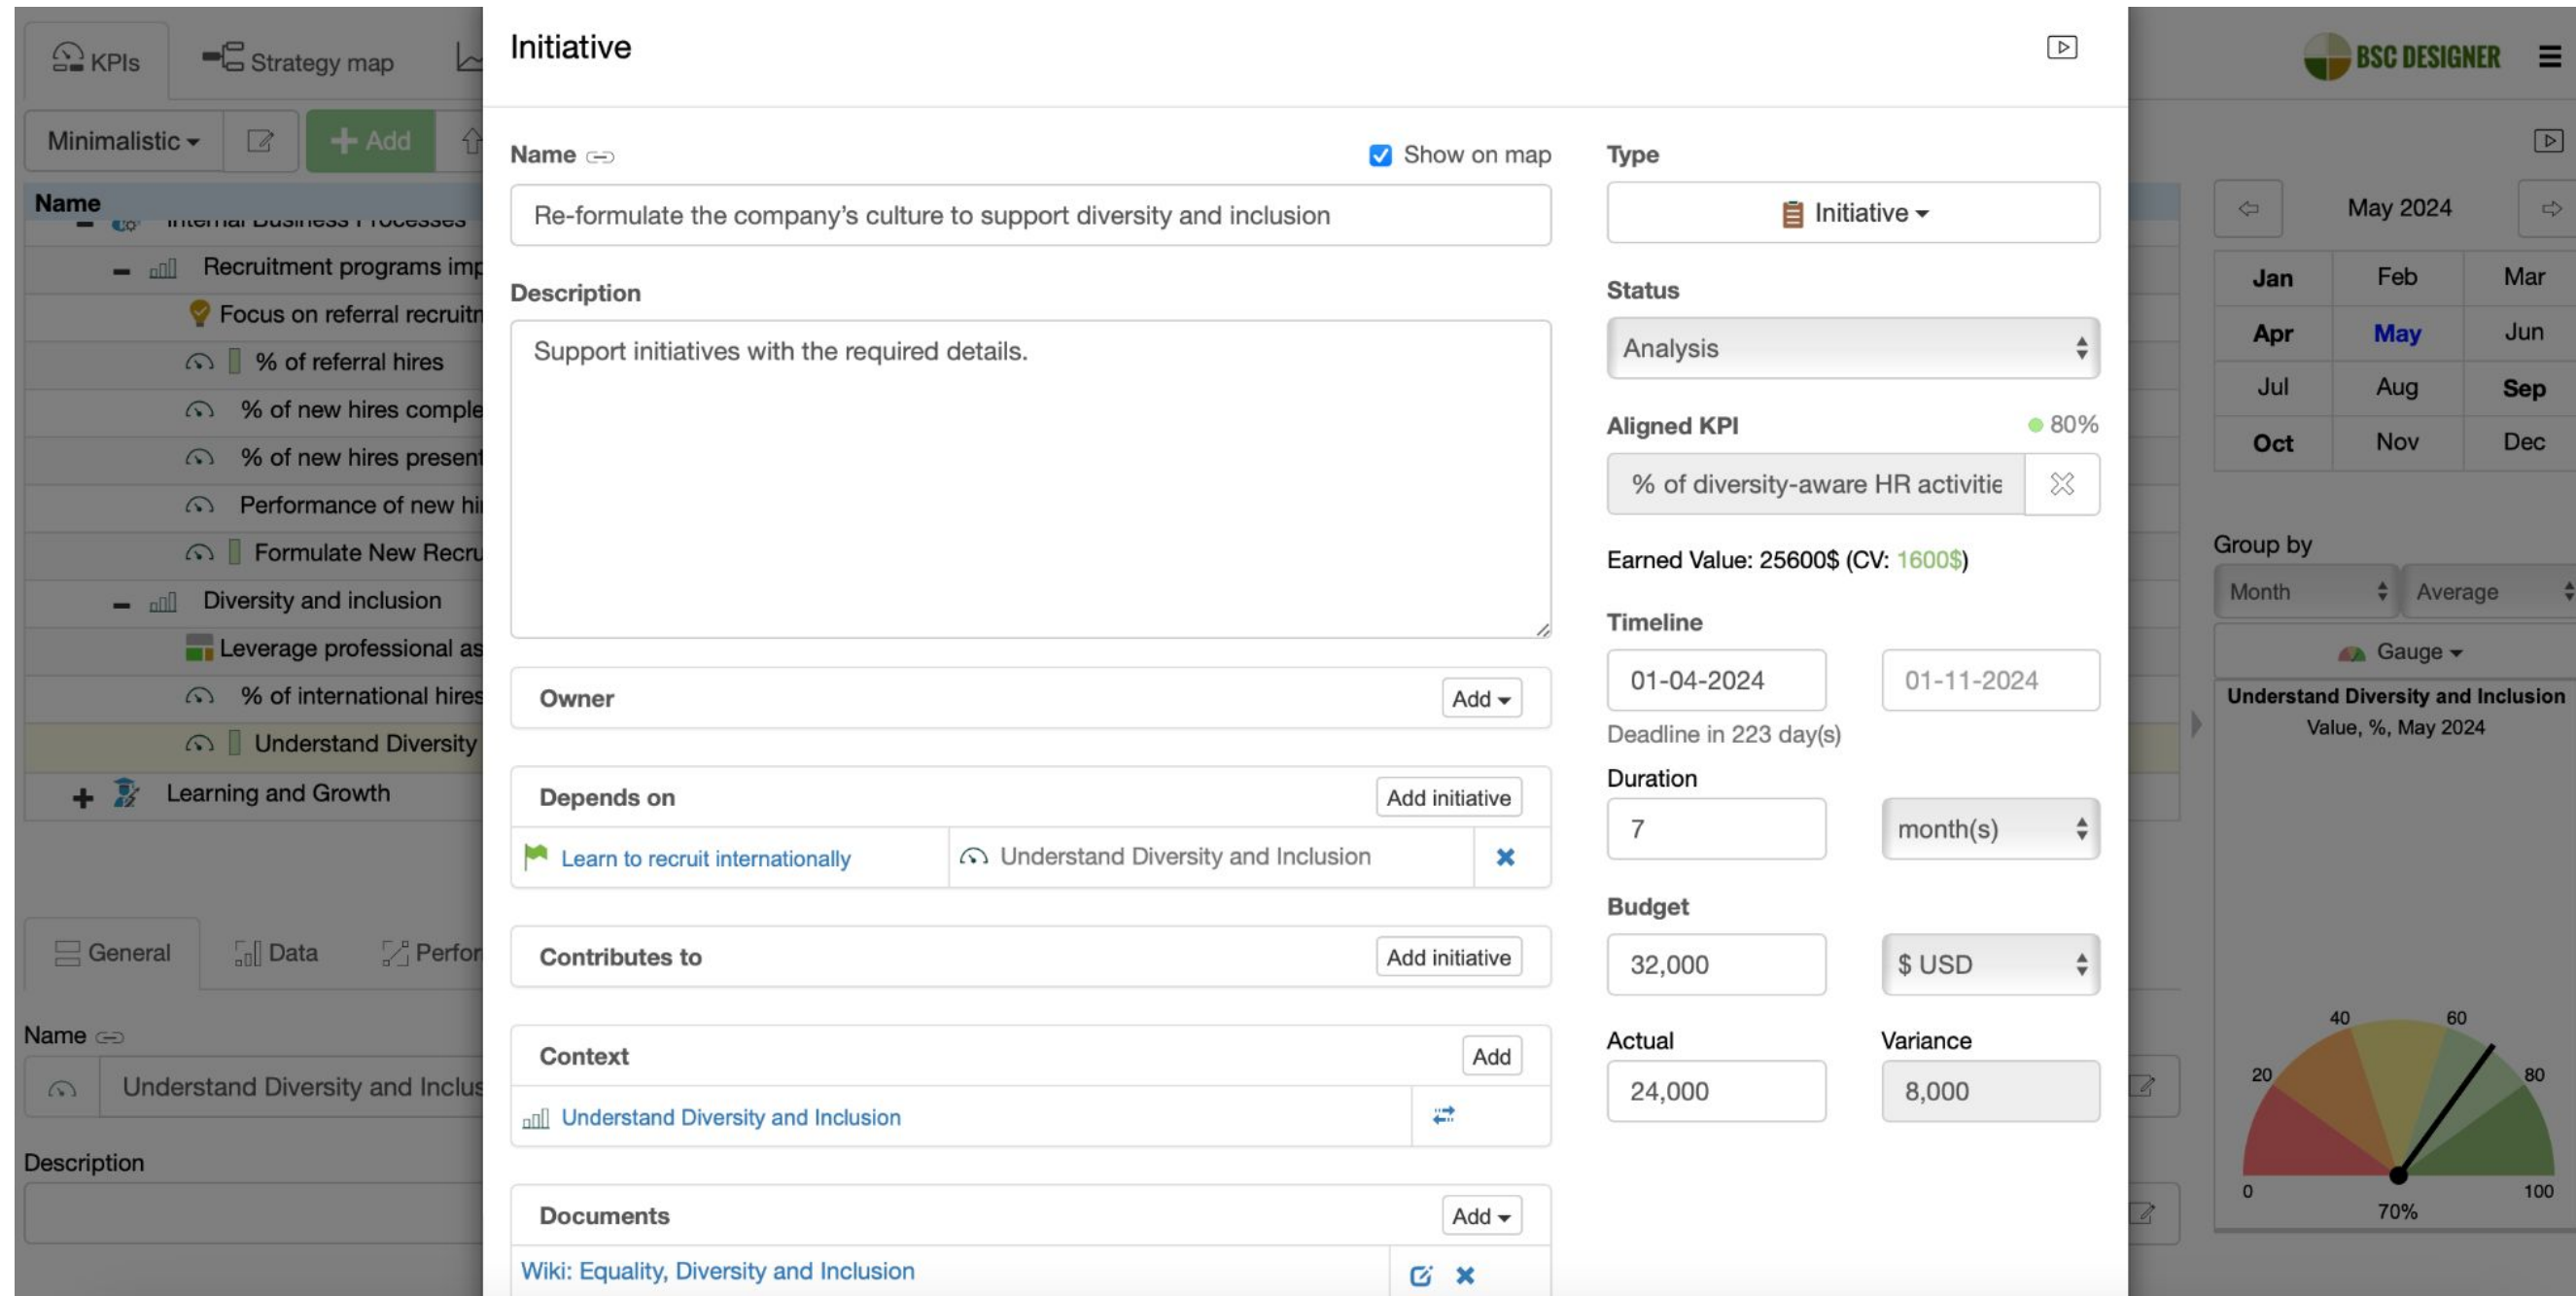

KPIs from other scorecards

Plugins (Zapier, Google Sheets add-on)

Generative AI

Have Action Plans to Execute Your Strategy

Upload documents, assign budgets, timelines and persons responsible for the initiatives to prepare the strategy for execution. Identify risks for strategic objectives. Comply with the ISO 9001 and ISO 27001.

The screenshot displays the BSC Designer interface, divided into two main sections: an 'Initiative' configuration form on the left and a dashboard on the right.

Initiative Configuration Form:

- Name:** Re-formulate the company's culture to support diversity and inclusion. Includes a 'Show on map' checkbox.
- Description:** Support initiatives with the required details.
- Type:** Initiative
- Status:** Analysis
- Aligned KPI:** % of diversity-aware HR activities (80% progress indicator).
- Earned Value:** 25600\$ (CV: 1600\$)
- Timeline:** 01-04-2024 to 01-11-2024. Deadline in 223 day(s).
- Duration:** 7 month(s)
- Budget:** 32,000 \$ USD
- Actual:** 24,000
- Variance:** 8,000
- Owner:** Add
- Depends on:** Learn to recruit internationally, Understand Diversity and Inclusion.
- Contributes to:** Add initiative
- Context:** Understand Diversity and Inclusion.
- Documents:** Wiki: Equality, Diversity and Inclusion.

Dashboard View:

- Month: May 2024
- Calendar grid showing months from Jan to Dec.
- Group by: Month, Average
- Gauge chart for 'Understand Diversity and Inclusion' with a value of 70% for May 2024.

Have Action Plans to Execute Your Strategy

Initiatives

Align initiatives with goals/KPIs

Types (initiative, success factor, expected outcome, rationale, hypothesis, risk)

Statuses (comment, analysis, in progress, review, done)

Progress indicators

Budgets in different currencies

Earned Value calculation

Aligned documents, dependencies, timelines, owners

Visualization on the Gantt charts

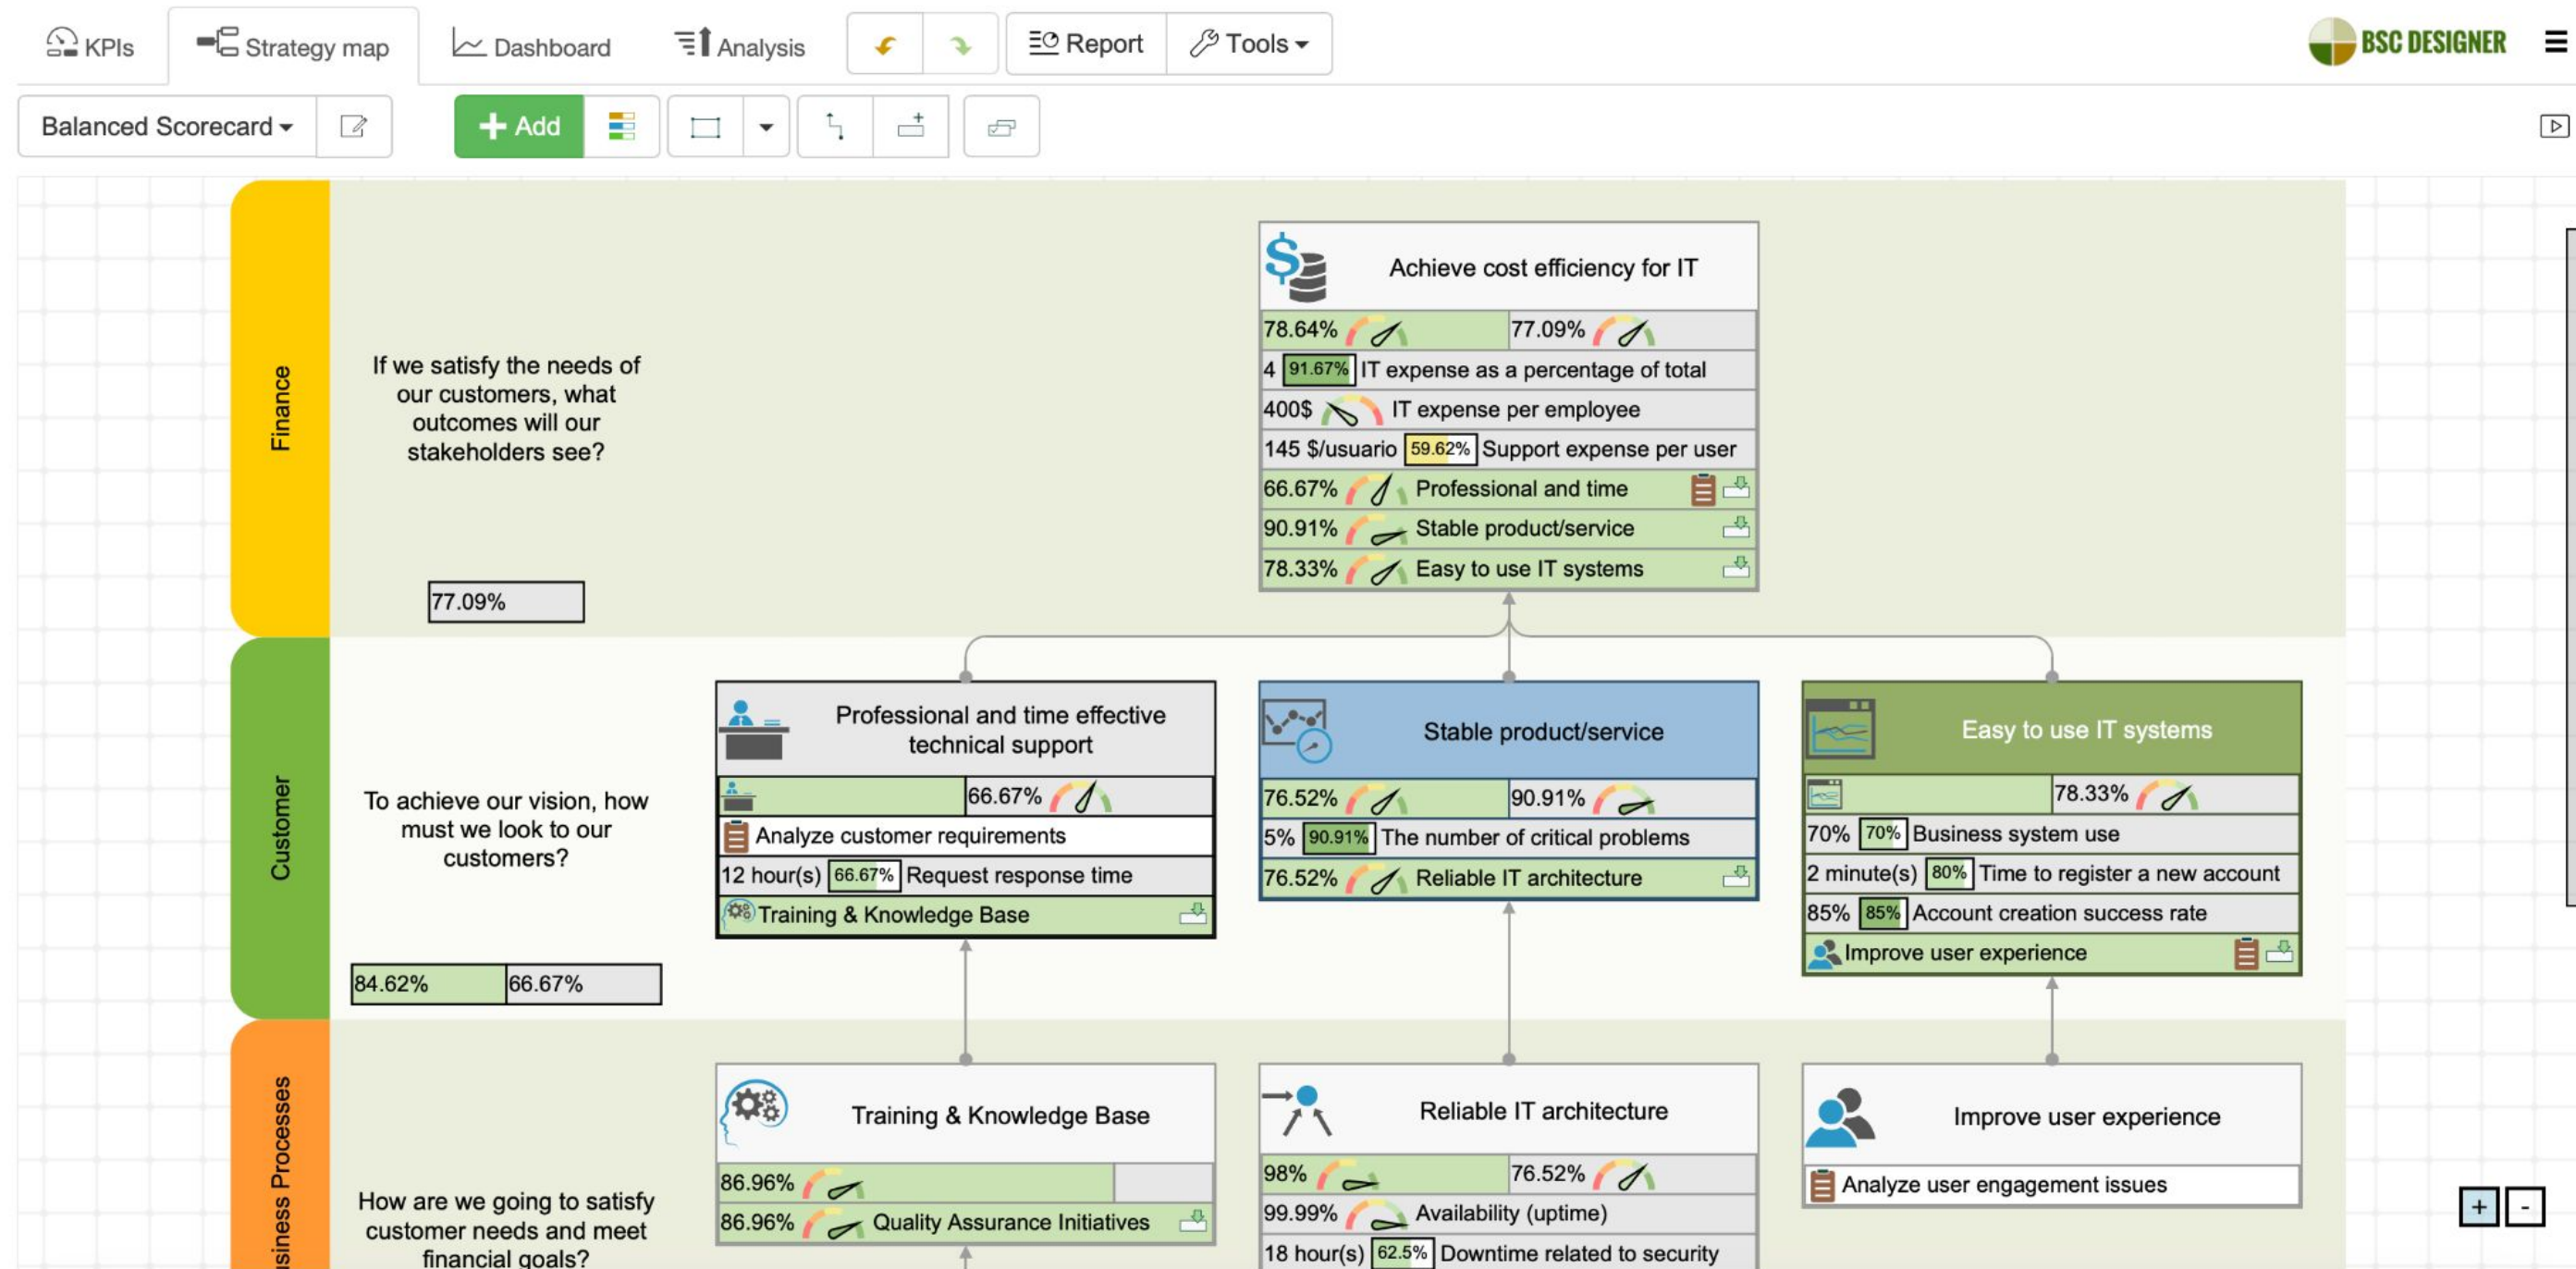

Risk Initiatives

Risk mitigation plans

Key Risk Metrics (KRIs)

Create Strategy Maps Automatically

Present your strategy on one page automatically.

Create Strategy Maps Automatically

Live strategy maps

Adding goals, indicators, and initiatives directly via map

Cause and effect connections

Custom objects

Custom canvases

Export for presentation/print

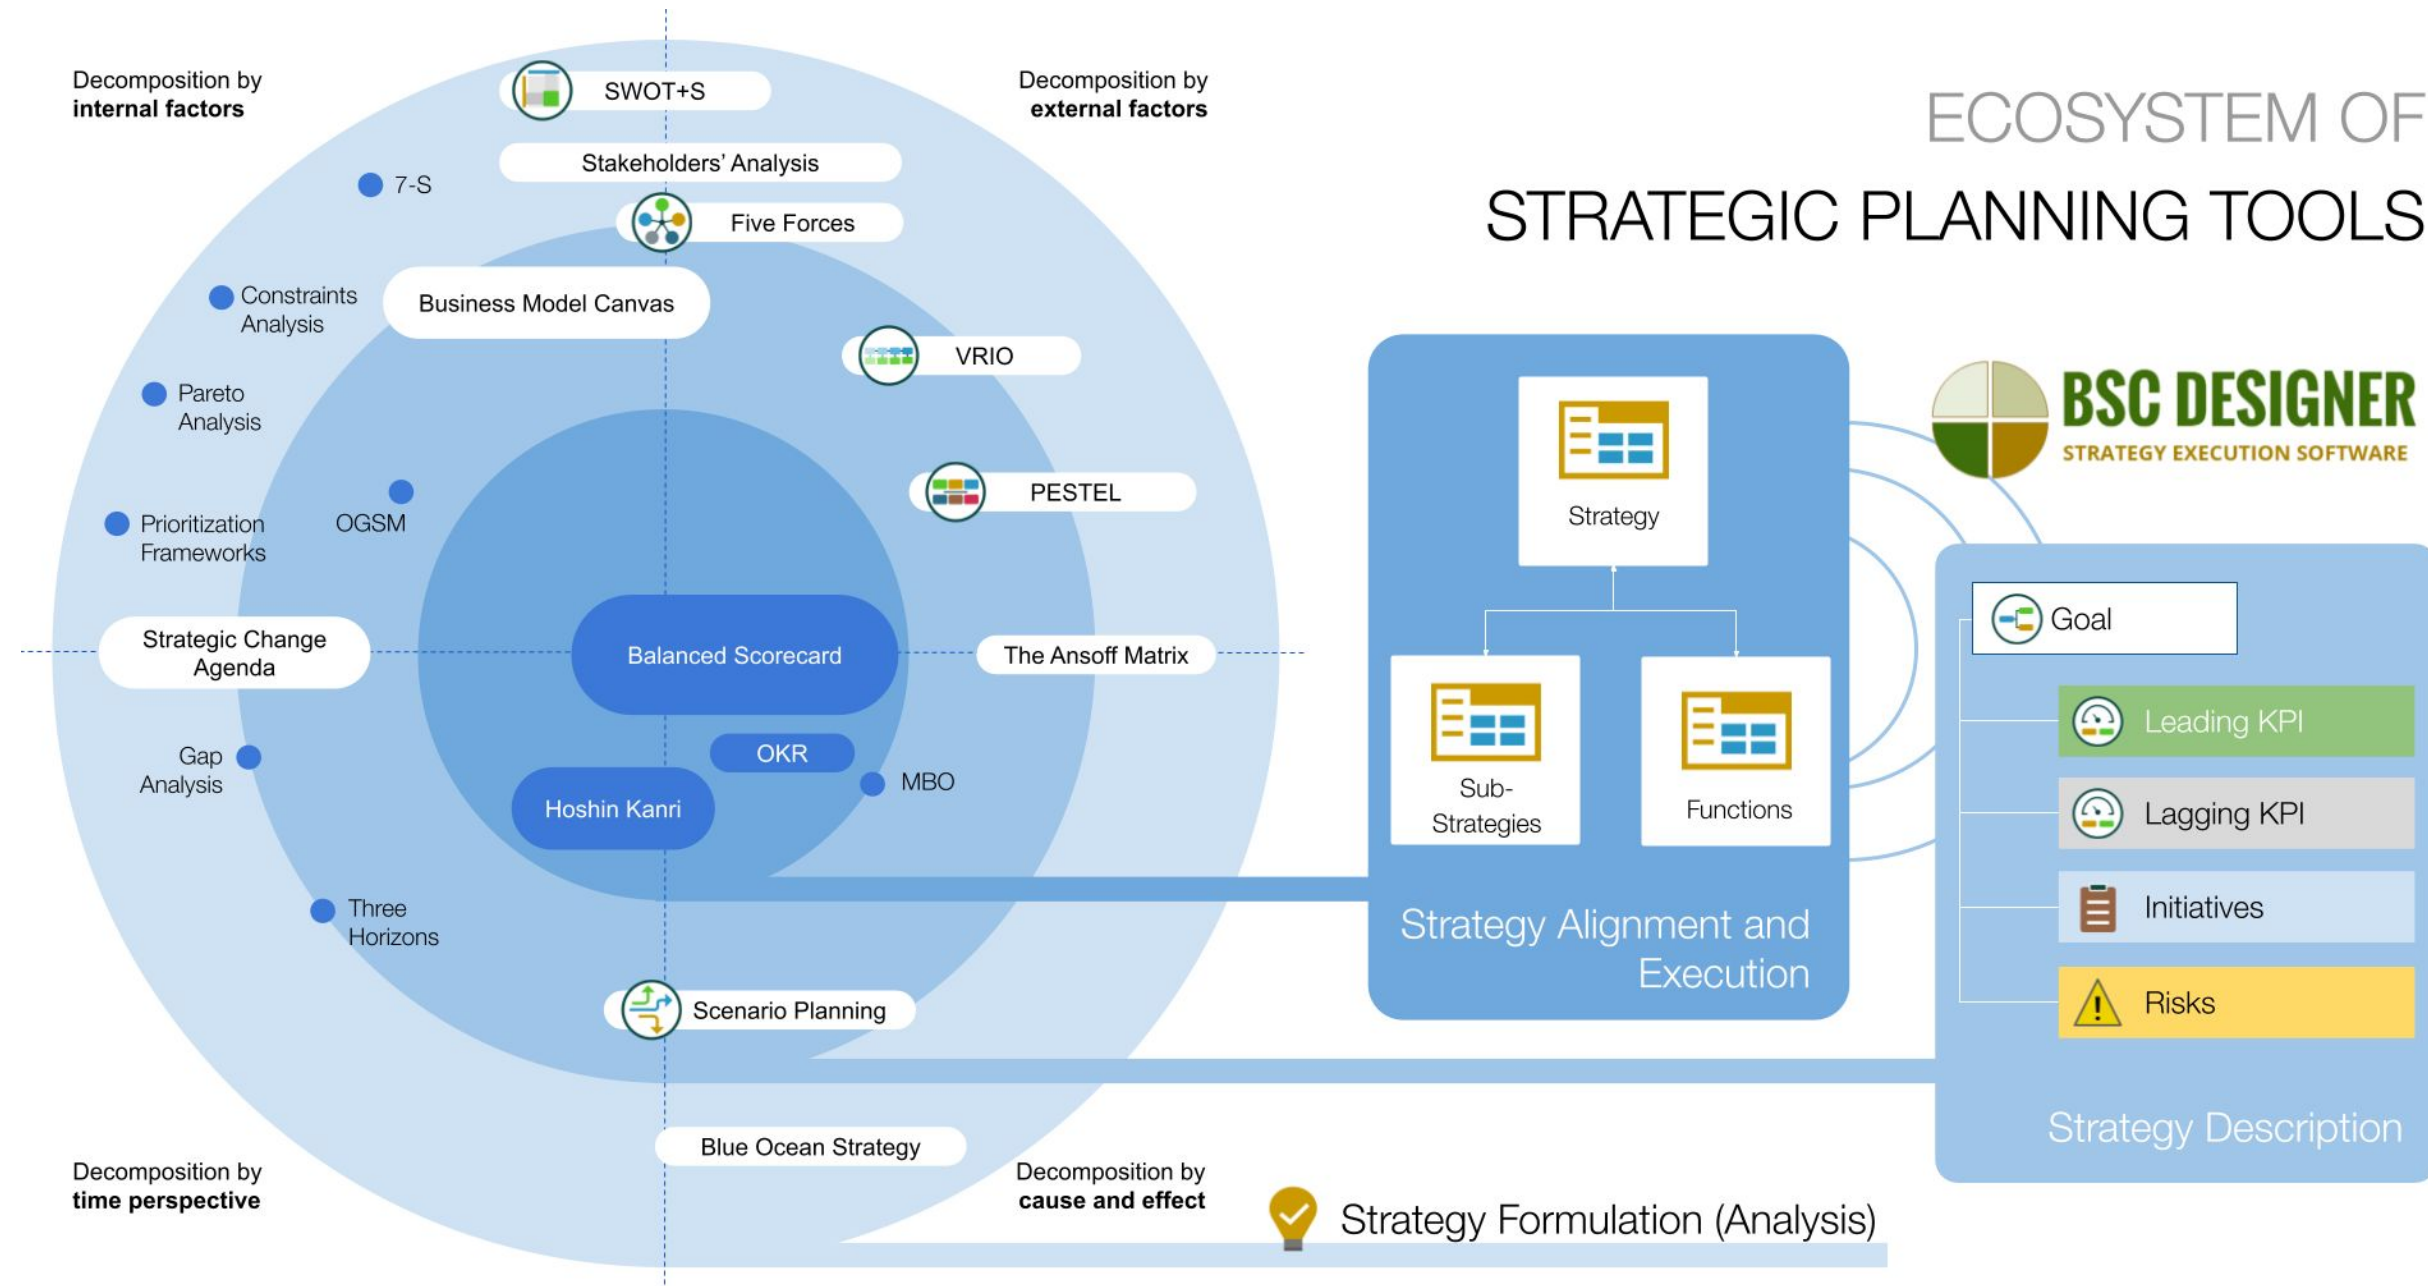

Multiple maps per scorecard

1st generation Balanced Scorecard strategy map (four segments diagram)

Modern-format strategy map

Combine Business Frameworks

Align the results of various business frameworks in a single strategy workspace; use the built-in templates for different business challenges.

Combine Business Frameworks

Templates for strategic planning

Balanced Scorecard

Stakeholder Analysis

Compliance Management

OKR - Objectives and Key Results

PESTEL - analysis of external factors

VRIO - analysis of competitive advantage

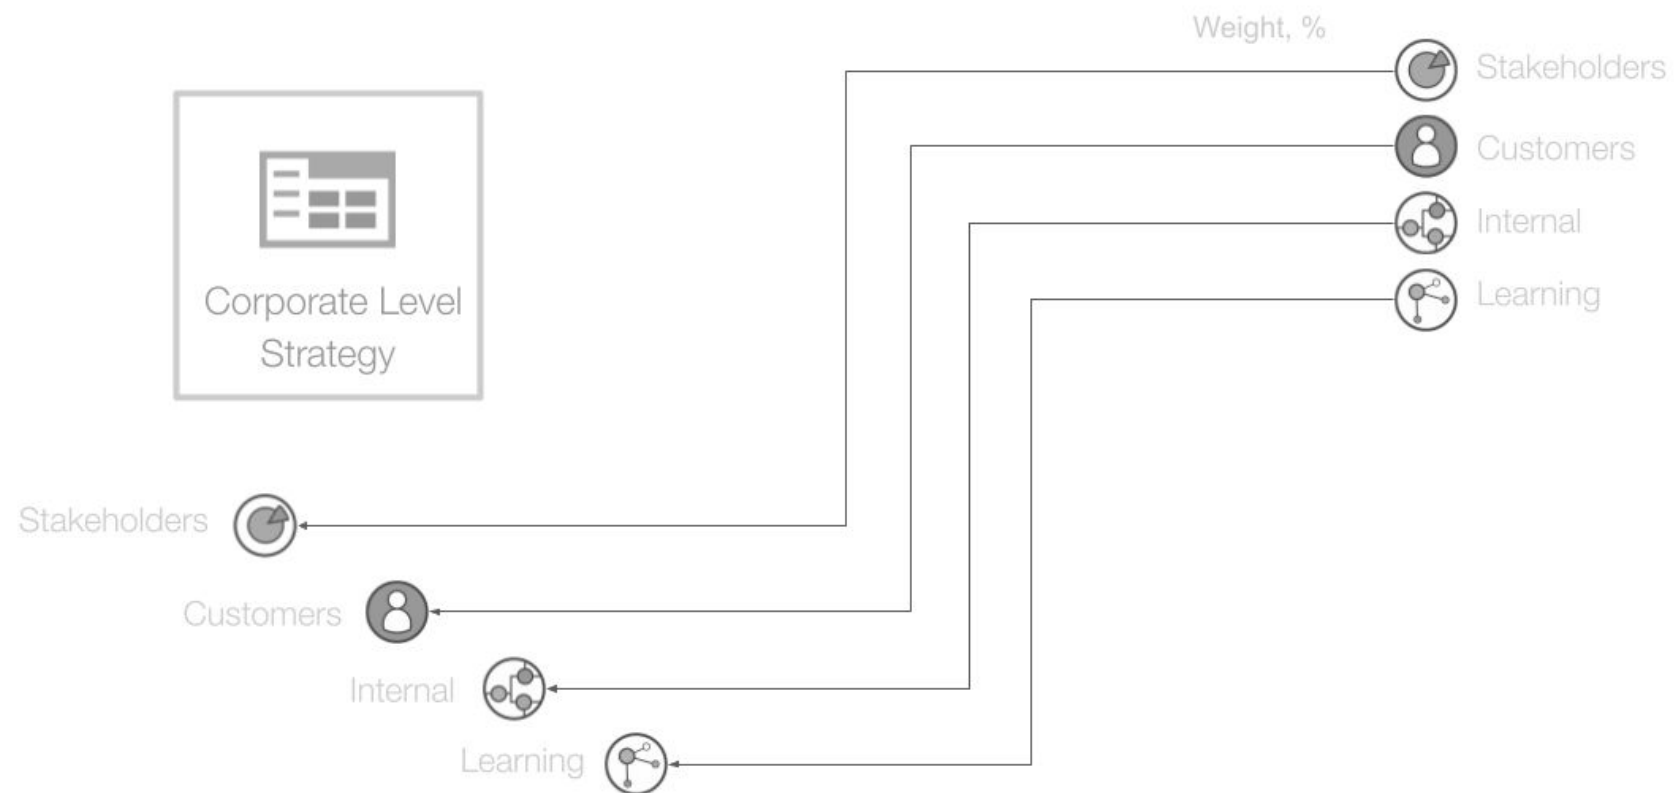

The Ansoff Matrix - business growth strategies

Five Forces - competitive analysis

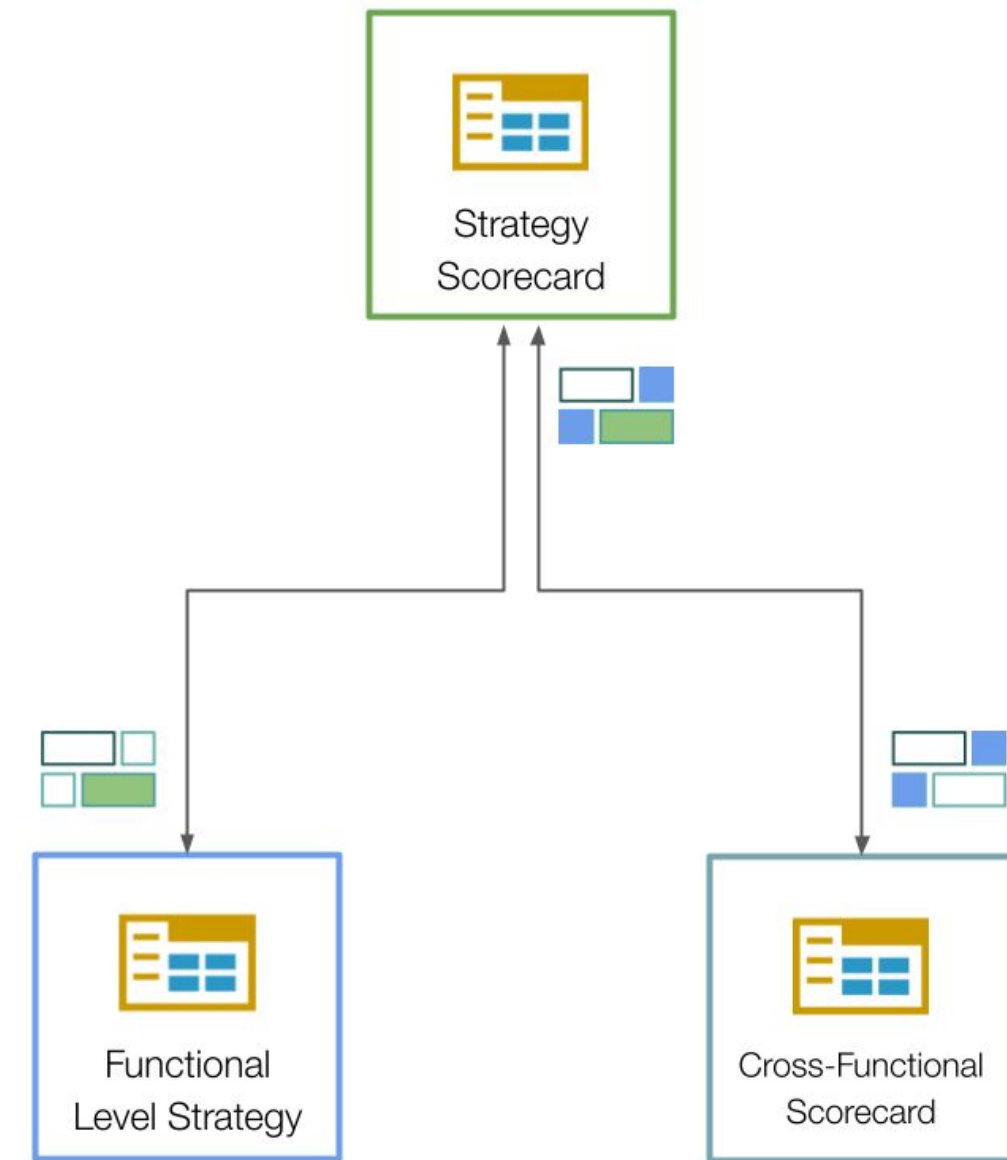

30+ strategy and KPIs templates (quickly define a strategy for additional focus areas such as cybersecurity, procurement, or corporate governance)

Align Scorecards Around Common Strategy

Align functional and strategy scorecards by data or by context to form a coherent strategy.

- Provide the required **contextual information**.
- Explain the **rationale** behind the goals.
- Apply to goals, initiatives, risks, and indicators.

Align Scorecards Around Common Strategy

Strategy Discussion

Cascading/alignment by perspectives (drag and drop scorecards in the strategy workspace)

Cascading/alignment by goals (copy and paste goals between scorecards to align)

Cascading/alignment by context (see the contextual connections on the Context tab)

Comments on the values of KPIs

Direct links to KPIs, dashboards, maps, initiatives

Capture ideas received by email to initiatives

Find Performance Gaps, Predict Trends

Find KPIs that had the biggest gain/loss, the most important indicators, forecast metrics using historical data.

Customization

Adapt the tool to your needs. Establish strategy-related standards and prepare for scaling.

Customization and workflows

User-defined templates

User-defined properties for the KPIs

Customizable fiscal year

Adjustable columns for KPIs table

Adjustable reporting profiles

Customizable workflow for the initiatives

Customizable measurement units

Customizable performance formulas

Templates for dashboard layouts

Data Governance

Share scorecards with your team; define if data entered by a user needs to be approved; control changes via audit trail.

Data Governance

Hosted securely on DigitalOcean platform (AICPA SOC 2 Type II, SOC 3 Type II, ISO 27001, PCI-DSS)

Formal cybersecurity program implemented (2FA, vulnerability testing, 'least privilege' practice, data encryption, intrusion detection, cybersecurity training, etc.)

Two-Factor Authentication (2FA)

Data localization compliance (regional droplet selection in the US, Canada, Europe, Singapore, India, or Australia)

Secure storage for strategy-related documents

RESTFull API

Account data backup/restore

Audit trail for general activity and values of KPIs

Lock historical data (only in Enterprise plan)

Approvals automation (only in Enterprise plan)

Access rights

Private scorecards

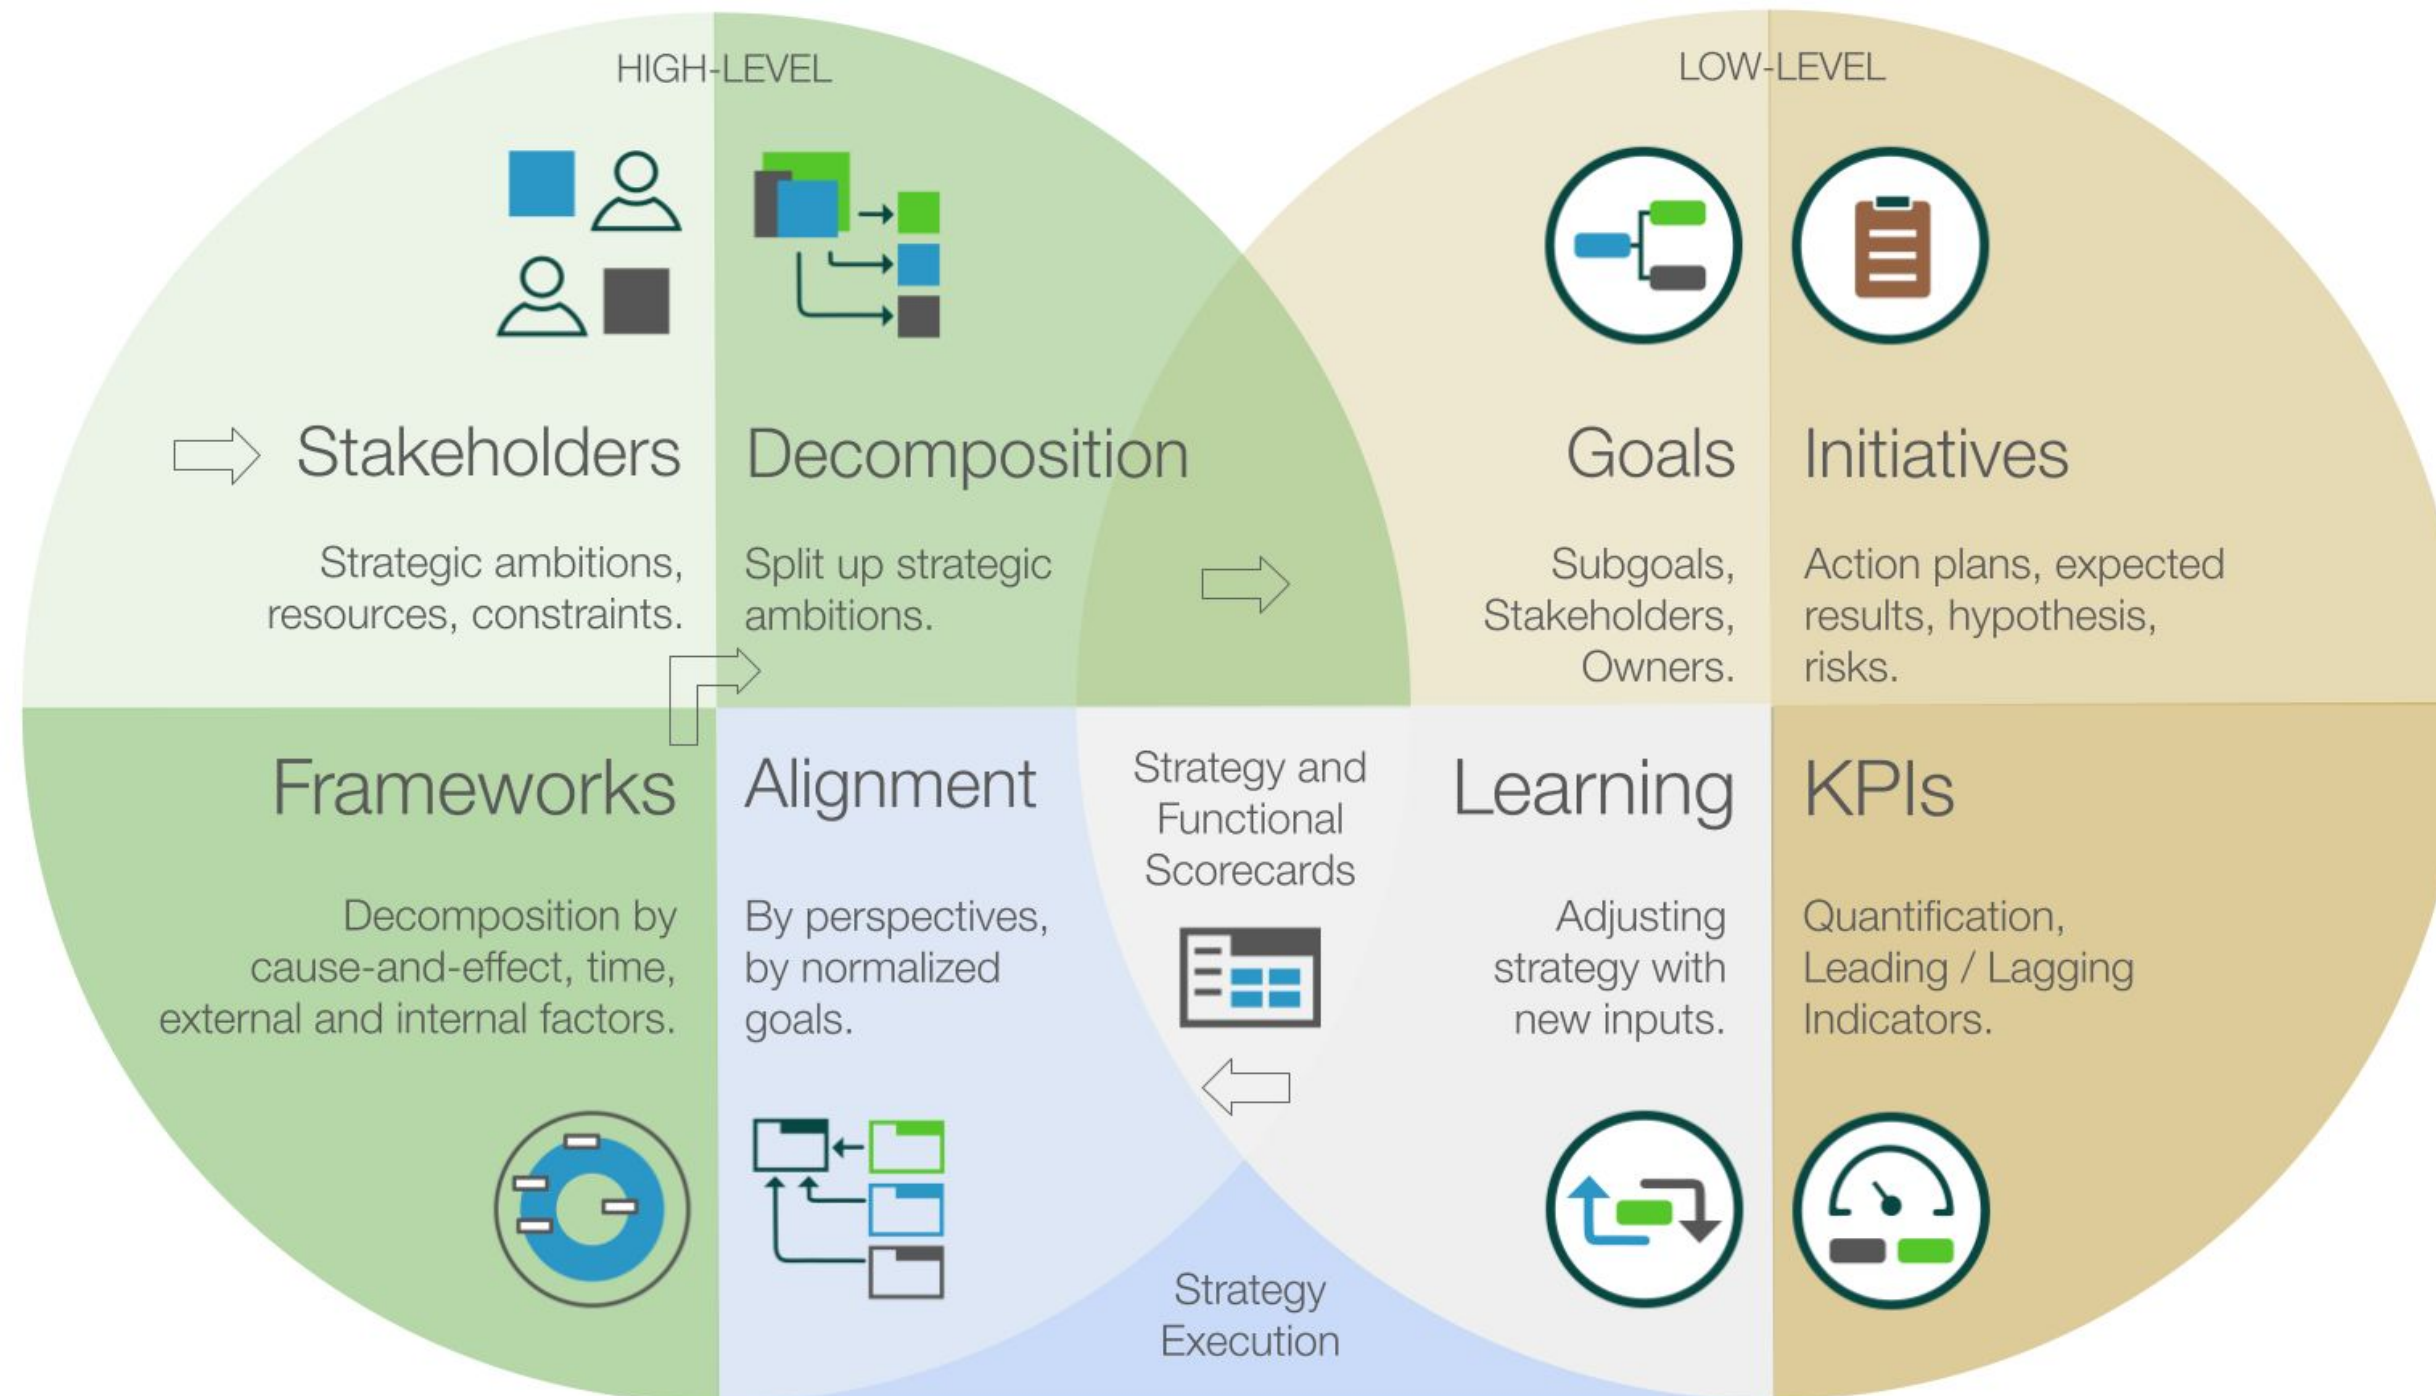

View only/edit rights (for groups, scorecards, and specific indicators)

Rights to view dashboards only

Public scorecards

A System to Connect the Dots

Our proprietary Strategy Implementation System will facilitate the practical application of strategy.
